

## Primary Breeder Companies

These are the international breeding companies that develop modern lines of commercial poultry.

**Aviagen Group** is the world's leading poultry breeding company, developing products to meet the needs of the commercial broiler and turkey industries. Formed in 1999, the company now combines poultry breeding resources and expertise across its brand portfolio, which includes Ross, Arbor Acres, Lohmann Indian River, CWT Farms and Nicholas.

Aviagen: Arbor Acres is a supplier of primary broiler breeding stock to the worldwide poultry industry.

Aviagen Turkeys: a primary breeder of large white turkeys. In September 2005, Aviagen Group turkey breeding companies, Nicholas Turkey Breeding Farms (Nicholas) and British United Turkeys (B.U.T.) will operate as one company.

Aviagen: Ross is the world's number one broiler breeder brand

**Cobb-Vantress** is a poultry research and development company engaged in the production, improvement and sale of broiler breeding stock.

### Hubbard

From the small flock of chickens with which Ira and Oliver Hubbard began the business in 1921, Hubbard has grown to one of the major international broiler breeding companies in the world. The poultry industry has seen remarkable changes during the past 90 years, with dramatic results for the benefit of humankind. Hubbard has played, and will continue to play, an important and vital role in this great industry

Hybrid Turkeys began operations in 1953 with 500 commercial meat turkeys. Since then, Hybrid has grown so that today, the company is one of the three major turkey breeding companies worldwide and Canada's only primary turkey breeder.

### Hy-Line
